LOCAL NEWS

Miss K. M. Kuhn, returned from summer school at Brandon on Saturday evening. She will resume her duties at the Chinook school.

Mr. and Mrs. Meers and son Murray accompanied by Mrs. Meers' place babies, Marjorie and High Prairie, Peace River, returned Saturday from an enjoyable holiday spent visiting at various places.

Mrs. Seeger and children have moved to the country where they will spend the winter.

Mr. and Mrs. F. Morrel and son have taken up residence in the house formerly occupied by Mr. Seeger. Mr. Morrel has accepted the position of teaching the second room of the town school.

Mr. J. E. Cooley, Mrs. L. Cooley and children returned from a visit to Garstain and points west, on Friday evening.

Miss R. Bowd left on Monday evening to resume her duties as teacher at New Brigden.

Miss Donaldine MacLean returned from a week-end trip to her home at Akask on Tuesday morning.

Miss Anna Marr left Wednesday morning for Hamilton, Ontario.

Mr. Harold Stewart left on Monday morning for Brooks.

Mr. M. F. Suiter and Mr. A. E. Roberts motored to Three Hills Tuesday.

The Friendly Circle will meet Wednesday September 9 at the home of Mrs. Russell Marr.

Mr. Russell Barton and son of Calgary, visited on Tuesday at the home of his brother in-law, W. Milligan.

Chinook Cons School reopened on Tuesday Sept. 1st

Jack Shier came to town this week to attend High School.

Miss Betty Milligan is visiting at Hanna this week, the guest of Mrs. S. H. Smith.

Mr. W. Milligan and son (Happy) motored to Olds last week, on a business trip.

Mr. Fink Superintendent of the Alberta Pacific Elevator is in Chinook this week shipping out the grain that was stored in the elevator.

Mr. Homer Bufts, of Hanna, was a business visitor here on Wednesday.

National Employment Commission is asking that all farmers on relief must register with the Secretary at once.

Kootenay Strawberry Jam 4lb pail .52c

Jelly Powders 6 for .29c

Tomatoes 2 lb's 4 tins for .49c

Coffee B. R. 1 lb tin .39c

Corn 2 tins .25c

Waterglass Large tin .19c

This is Peach preserving week.

Fresh Pears, Plums, Apples, Crabs, etc.

School Supplies of all kinds.

A Summary of The Departmental Exams. of Chinook Cons. School

The following is a summary of the departmental examinations of Chinook Consolidated Schools, excluding promotion subjects and those taken by private study. Of 52 writing, 15 passed in all units taught in the senior room, viz:

Grade XII
Frank Marcy, Mary Coates, Beatrice Lachman, Arthur Loader, Chester Rideout, Irene Shier, Jean Stewart, Bill Youell.

Grade XI
Gladys Coates, Kathleen Proudfoot, Jim Wilson.

Grade X
Lorna Chapman, Ted De Maere, Bob Marcy, Jim Proudfoot.

Three students in grade XII passed in all but one unit; one failed in two; one in three and one in four units.

Two students in grade XI failed in one unit, while one in grade X failed in one and another in two units.

Jim Proudfoot led the school with an average of 81.5 per cent. Kathleen Proudfoot came second with an average of 78 per cent.

Other good marks were: Frank Marcy, biology, 84; trigonometry 78. Agnes Bunney, literature, 81. Maurice Marcy, agriculture, 2, 77. Gay Massy, literature, 4, 75. Irene Shier, trigonometry, 76. Jean Stewart, physics, 2, 80. Bill Youell, history, 4, 85; chemistry, 88. Jim Wilton, physics, 1, 91. Bob Marcy, art, 81; geometry, 2, 82.

Jim Proudfoot's lowest mark was 78 per cent, and Kathleen Proudfoot's was 76 per cent.

Several students have written off their failures at the supplementary examinations and are hoping for the best.

The school's average as a whole was 84.6 per cent pass.

The Chinook Advance

The Need For Flexible Loans

More elasticity is needed in mortgage loan agreements covering security in Western Canada in future than has been provided for in the past.

In future agreements some cognizance should be taken of the possibility of the intervention of Providence in the affairs and operations of the mortgagor resulting in complete or partial inability to meet maturing annual payments of principal and interest due to no fault of his own.

Experiences of the past few years of general economic and agricultural depression have demonstrated that the terms under which loans have been made in the past have been based on the false premise that the farmer is in receipt of an assured and steady income, such as, at least in theory, is enjoyed by the salaried man.

Such agreements provide for the payment on a specified date each year of a portion of principal and one year's interest on the loan, without any provision for postponement of either principal or interest in the event of crop failure which may ensue from any one of a number of causes over which the mortgagor has no control whatsoever.

The conditions under which agriculture has labored in Western Canada during the past five or six years, resulting in the piling up of mortgage indebtedness and now necessitating debt adjustment on a wide scale, have amply demonstrated the futility of agreements which make no provision for a measure of relief in periods of total or partial crop failure.

There is no doubt that much of the work and expense of debt adjustment now in progress could have been avoided had agreements, under which these debts have pyramidized, even to the extent in some cases of wiping out the mortgagor's equity, been drafted when the original loans were made, to provide for automatic reduction in the amount of repayments in years in which, because of the operation of natural forces, the mortgagor had little or no income and for an increase in payments in years of bounty, when much of the indebtedness would have been repaid.

Not only would endless negotiations with loan companies and the work of debt adjustment tribunals have been materially lessened, but the debtor would have been saved years of mental torture and harassing anxiety as he watched a juggernaut of accumulating interest threatening to crush him and pictured the arrival of the day when he and his wife would be dispossessed of all they ever owned.

A form of agreement that would eliminate this dread which must necessarily haunt the days and nights of the honest debtor who does his best to meet his obligations and is only defeated because of circumstances over which he has no control, would be a godsend to all who have occasion to secure loans in the future.

It should be possible to draw up an agreement that will provide for repayment of principal sums in accordance with the ability of the mortgagor to pay based on actual returns from honest effort and yet, at the same time, protect the lender from loss due to human incapacity or the machinations of dishonesty.

It is interesting to note that agreements incorporating the principle of paying more in times of plenty and less in times of dearth have been adopted and put into effect with apparent success in Australia, where in certain sections of the country the sheep ranchers are subjected to severe drought ravages to the extent at times of wiping out whole flocks. In that country the same principle has been made to apply also to short term credits supplied by the banks.

If such a policy can be worked out successfully in Australia there appears to be no reason why it should not operate equally well in Western Canada.

It is to be hoped that some arrangement for greater elasticity in future loan terms can be made by members of debt adjustment tribunals who are in frequent negotiation with the loan companies at the present time.

That the necessity for something of the kind exists was referred to recently in an address by S. P. Grossch, chairman of the Saskatchewan municipal debt adjustment organization, when he said: "I find there has been a rigidity in our system of making loans to farmers that has not sufficiently taken into consideration the wide fluctuations in revenue to the farmer between years of plenty and years of scarcity." Provision should be made for greater flexibility."

The fact that at least some authorities have come to this conclusion strikes a hopeful note that something more commensurate with Western conditions will be arranged for in the future.

Swords Are Forbidden
Hereafter swords may not be carried in Turkey, according to an order just issued by the Turkish government. Uniforms may be worn only by foreign airmen, soldiers, sailors, visiting Turkey on duty or to attend sports; by forces taking refuge in Turkish waters or territory; by fliers who have crashed or are detained by personal or mechanical damage.

How Easter Date Is Set
The present rule for determining the date of Easter was adopted by the Council of Christian Churches in 325 A.D. This rule says that Easter shall be on the first Sunday following the Paschal full moon, on or soon after March 21.

Liquid Air As Fuel

Newest Energy For Motors Being Tested in Japan

Liquid air serves as fuel for one of the strangest motors ever built, which now is operating in a Japanese laboratory. Should it fulfill the hopes of its inventor, it may bring about a revolution in motive power for vehicles of the land, sea and air. In contrast with the fiery temperatures of a conventional internal-combustion engine, which it somewhat resembles, the new motor operates at temperatures from 250 to 350 degrees below zero. Its small fuel tank holds ordinary air that has been chilled until it is transformed from a gas into a liquid like water. The difference in temperature between this extraordinary fuel and the surrounding atmosphere provides the energy to run the motor. From the fuel tank, the liquid air passes to a chamber where it is allowed to absorb heat from the exterior air. In doing so, it turns to vapor, much as water turns to steam when heated in a boiler. The pressure of the expanding air drives pistons in a pair of cylinders. Through an elaborate system of auxiliary apparatus, virtually all the energy contained in the liquid air is reported to be recovered. Because of its efficiency and small bulk of fuel required the inventor foresees eventual application of his motor in automobiles, trains, ships, and especially in airplanes. The small bulk of fuel required would also be an important advantage in aircraft. — Popular Science.

Long-Distance Phoning

Australia Claims To Have Most Calls In The World

Due to the distance from other centres of civilization, Australia is confident it has more long-distance telephones calls than any other country in the world.

A report of postal authorities, who are in charge of long-distance telephone calls, shows a few facts of the past year to be as follows:

A call of 19,000 miles from Sydney to Valparaiso, via London and Buenos Aires, with perfect reception.

Frequent calls from Sydney to London, San Francisco and to South Africa.

One call from Los Angeles to Sydney that occupied 53 minutes and constituted as far as time is concerned the longest long-distance call ever made into Australia. At regular rates it would have cost \$900.

A conference call from London to Australia that embraced Johannesburg, Bombay, Sydney, Melbourne, Adelaide and Perth, where everyone participating talked and heard each other as easily as though they were sitting around a conference table.

Since the radio-telephone service was inaugurated there have been 7,000 calls between Australia and the outside world as far afield as Chile, the Saar, Finland, Hungary and Palestine.

The latest hookup in the long-distance telephone network has been with Tasmania.

New Test Of Death

Will Avoid All Possibilities Of A Premature Burial

A new test of death, discovered by Drs. Salisbury and Melvin of Queen's University, Kingston, Ont., is described in the British Medical Journal.

The general application of this test would remove all traces of one of the most haunting fears of mankind—the chance of premature burial.

The test involves appearance of the eye. All that is necessary is an ophthalmoscope, an instrument for inspecting the retina. If the columns of blood in the retinal veins are broken the patient is beyond resuscitation. This phenomenon takes place after the circulation has been stopped for about ten minutes.

No Wonder It Hurts

The tail of the cat is part of the backbone, or spine, which is made up of a number of little knots of bones joined together, just like our spines; and puss's spine is also joined to her brain. You will understand now why puss cannot bear to have her tail pulled and why she growls and scratches when the baby drags at it. No wonder for it affects her brain and half maddens her for a minute. —Our Dumb Animals.

Unique Shoe Shop

A department has been opened in St. Louis by the Child Conservation Conference, where persons using only one shoe, because of the loss of a foot or injuries, may exchange shoes with persons not having the use of the opposite foot.

Highway tolls were once paid with cash, but now with blood.

Cable-Cars Are Out

Japanese Do Not Want Mount Fuji's Beauty Marred

Majestic Mount Fuji has escaped another effort at modernization and climbers who want to get to the top will have to continue doing it on foot. A proposal for a cable-car route to the summit has been rejected.

The Japanese Home Office, opposing the project, declared that such a railroad would mar the beauty of the mountain and have an adverse effect on Japan's national health.

The reasoning behind the second idea was that a railway would induce laziness and deprive many climbers of the healthful exercise necessitated by the climb.

One report was that a series of anonymous threats had been made to bomb a railway if one were built. The newspaper Jiji understood the reported threats influenced the Home Office decision to some extent.

Fujii noted for its perfect formation, is 12,467 feet in height. Nearly 100,000 persons climb it annually.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rain! To Go

The liver should pour out two pounds of bile daily into your bowels. If this bile fails to do its work, you will feel bad. Just digest this in the bowel. Gas blabs up your bowels. Digest this and you'll pass your gas to the body, and you feel sour, sunk and the world looks pale.

You must take care of your liver. Get it to work. If you don't, you'll always get at the cause. You need something that works to the liver. Take this and it will help. Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel good again. You will feel better. Make the bile flow freely. Then do the work of the liver. You will feel good again. Take them. Ask for Carter's Little Liver Pills by name! Strikingly refund anything else. 25¢

Home-Made False Teeth

Materials Made From Metal Crank Case Of A Motorcycle

False teeth made from an old motorcycle crank case are the crowning climax of a life of dental experimentation by Albert Orwin, road worker living in the village of Jumna, near Wombwell, Eng.

First, Orwin tried his ingenuity on the knuckle bone of a leg of mutton but the bone was not big enough. Then he tried using a billiard ball which, however, had the same defect, the diameter being only two and a half inches.

Success came when he melted down the aluminum from the crank case of the old motorcycle. The melted aluminum was run into an "impression" which he had taken himself.

Even so, this set is only for everyday use.

On Sundays his smile reveals a "perfected" set made from the aluminum screw tops of old thermos flasks.

Centipede To Blame

Caused Breakdown At Electric Power Station In India

Peshawar City, on the North-West Frontier, India, was thrown into complete darkness by a centipede.

For three successive evenings the city lights failed. On each occasion a breakdown occurred at the electric power station, but experts could not determine the cause. All their investigations—up to a rapid inspection of underground cables—failed to explain the mystery. Then on the fourth night, a lissman found a centipede on the wires which carried the electric current to the city. A number of its legs were singed. This was taken as sufficient evidence of its previous expeditions.

Special Prize

A special prize of \$25 will be awarded for the best finished Hereford steer at the Saskatoon and Regina spring fairs in 1937.

The only safe rule is to quit driving for a spell when drowsiness begins to steal away one's alert attention to the full and efficient control of the car.

Interested In Alaska

Don Stusek has returned to Juneau, Alaska, and declared he was stopped by every traffic cop on Broadway and Fifth Avenue, New York, but not for infractions. The policeman spotted his Alaska license plates and wanted to learn something about the territory.

Finds Thriving City

British Government Official Sees The Settlement While Flying

The lost city of Yong Peng, inhabited by 5,000 Chinese and situated in the midst of the Malayan jungle, was found by a British government official while flying over the district.

The official, who was employed in the Land Office of the native Malay state of Johore, saw a large settlement in the heart of the jungle, which he did not recognize. Next day he drove to it, and to his amazement discovered that it was the lost city of Yong Peng.

The government was unaware of the existence of the town, although it has been a thriving agricultural centre for nearly ten years.

The inhabitants, who are Chinese, work as rubber planters on an area of more than 10,000 acres. They have built the town as their headquarters, and provided it with all the amenities of a native civilization.

SELECTED RECIPES

DATE SHORTBREAD

(Mixture 1)

1 package dates (stoned)

1 cup boiling water

1 cup brown sugar

Method: Boil together until soft. When cool, add 1 teaspoon vinegar or lemon juice.

(Mixture 2)

1 cup shortening

3 cups Purely Rolled Oats

2 cups Purely Flour

1 teaspoon salt

1 teaspoon soda

Method: Sift flour with salt and soda; add Purely Oats and cut in shortening.

Divide Mixture 2 into equal parts.

Place half of it in oiled baking pan.

Spread Mixture 1 over this, and then

spread remainder of Mixture 2 over

date layer in sandwich-like fashion.

Bake in slow oven of 300 degrees for 40 minutes.

Horns Must Be Approved

Soft Tone Essential For Cars In Buenos Aires

The city of Buenos Aires, according to a report, will refuse to license automobiles unless the sound of their horns is approved as mellow and soothing. The regulation provided that "all motor vehicles should be provided with horns of a single tone, to be determined by the executive department. The use of 'Kluxon' sirens, loud-sounding sharp and double or treble-tone horns is strictly prohibited."

Discovery of bone and ivory implements bearing no resemblance to those used by present-day Eskimos has led scientists to believe that the Eastern Arctic once was inhabited by a strange race, now extinct.

Douglas Leechman, a National Museum anthropologist, will spend several weeks exploring old village sites on the Burto Islands, on the eastern tip of the Ungava Peninsula, in an effort to find some clue to the date and origin of the ancient race.

New Centre Of Civilization

Future Development Of World Opportunity Lies Along Pacific Coast

Opportunity for advancement in the world today lies in the Pacific area, Dr. Adamantes Plyzoides of the University of Southern California has been telling audiences lately.

"The European civilization is a dying one today," declares Dr. Plyzoides, "while the new world, vital, progressive and dynamic, lies along the Pacific."

The future development of world opportunity lies, he believes, with the reawakening of Japan, China and Russia.

"While the various political movements in the Far East," says Dr. Plyzoides, "may not be to our liking, yet because of those movements one-half of the world's population is awakening to the future. With this awakening, the opportunity for business and cultural development of American institutions will be unlimited."

"Competition from European sources will be only negligible because the European nations are too interested in their petty 'international backyard fights' to see what they are missing in the way of truly world competition."

Forgotten Eskimo People

Government Scientist Trying To Find Traces Of Old Civilization

A new attempt to find traces of a forgotten Eskimo civilization in the Eastern Arctic will be made by a Canadian government scientist who has sailed for the Arctic aboard the Hudson Bay's sturdy supply ship, Nasco.

Discovery of bone and ivory implements bearing no resemblance to those used by present-day Eskimos has led scientists to believe that the Eastern Arctic once was inhabited by a strange race, now extinct.

Douglas Leechman, a National Museum anthropologist, will spend several weeks exploring old village sites on the Burto Islands, on the eastern tip of the Ungava Peninsula, in an effort to find some clue to the date and origin of the ancient race.

Disguises Forbidden

Britain's Regulations In Singapore Are Very Severe

If you, madam, are a synthetic platinum blonde, or if you, sir, hide your bald head under a wig—steer clear of Singapore.

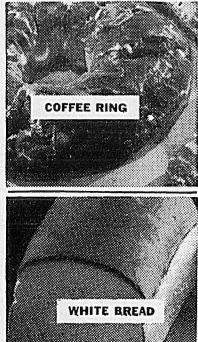

A new official secret act decrees that all disguises, including dyed hair and wigs, are forbidden. Wig-wearers are liable to be arrested as spies, so stringent are the regulations in Britain's Gibraltar of the East.

Japanese scientists are displeased because Russia would permit only two of them to enter the country to view the recent eclipse.

**ROYAL YEAST CAKES
keep Full Strength**

Royal Yeast Cakes and Royal Sponge Recipes make perfect breads like these...

Use Royal Yeast Cakes and you'll be sure of perfect leavening. That's because each cake contains carefully protected by its own air-tight wrapping. No other dry yeast has such protection. You can bake with Royal Yeast Cakes the day you buy them—or weeks later—and count on the same fine results each time.

Cannot Be Calculated

Amount Of Happiness You Can Produce By Smiling

Be cheerful! Which will you do—smile, and make others happy, or be crabbed, and make everyone around you miserable? The amount of happiness you can produce is incalculable if you show a smiling face and speak pleasant words. There is no joy like that which springs from a kind act or pleasant deed, and you may feel it at night when you rest, and in the morning when you rise, and through all the day when about your business.

The British postoffice handles more than six billion letters and parcels annually.

Thou Shalt Not Love

A NOVEL BY —
GEORGIA GRAIG

CHAPTER IV.—Continued

"Yes, you do sound as if you might be the very girl I'm looking for . . ." And then he went on amazingly: "I've been hunting this town over, turning everything upside down, wishing that Fate would send me a girl such as you seem to be. A lovely girl who has been places and seen things, who could take her place anywhere, and probably has, even if she wouldn't want it known—a girl without family ties or other encumbrances, you understand?" His smile twinkled at her a little crookedly. "Beginning to get a little of the why of the cross examination?" And—a girl with sufficient disregard for the conventions to allow herself to be molded into the type I want her to represent. A reckless, heartless, fast-living playgirl!" Again the twisted smile. "I was beginning to believe such a girl could exist only in fiction, but—"

Star caught her breath sharply, looking at him as though searching for the Mephistophelian physical attributes his words intimated might be expected to be discovered. What madness was this? For a fleeting moment Starr feared that the curse of Tut-Ana-Ra, mercifully forgotten for a few pitiful moments, was attacking her mind instead of her body. This couldn't be right.

Probably she was still back in the Museum; still under the spell of a painted priestess. She was uncertain whether this whole episode of the cafe of painted women and licentious-looking men — and the man whose very appearance represented to her all she had lost, all she might never hope to gasp—was a fantastic creation of her own imagination.

"Hassan," she had deliberately called him in her own mind, stubbornly putting away the idea that of all the people in the world she had ever seen he least resembled anything or anybody Egyptian or Arab. In that peculiar mood where she had determined to embrace, instead of cringe, from the things Egyptian which had lured her father to his death, she had decided on this name for the man as symbolic for this, her own Arabian Night's tale. It couldn't be anything else . . .

Iidy she wondered what his name might really be. That didn't matter, either, in this tumultuously foolish dream.

She stole a glance at "Hassan's" strong profile, felt the warm pressure of his hand sending tingles of fire through her cold blood. Oh, no, he was real enough! No Arabian Night's Hassan. Probably somebody called Reggy by his friends, or on the other hand, Bill.

He went on rapidly, as though making the most casual conversation:

"I'll provide you with an apartment, of course, the kind of setting you should have. As a matter of fact—" he paused a moment, studying her—"Gad! What an idea! With those eyes that coloring—all this talk we've been having about Egypt—you're not Egyptian, of course, but what an idea! You could be it, and—" He stared at her, as if he didn't see her at all, but as if she were some puppet of his imagination he was trying to set into its own little jigsaw puzzle place. "You could forget you'd ever been."

Starr didn't know why, but she found herself nodding, taking part in the game whatever it was, as she said dreamily:

"Forget—forget—" It was a half-hypnotic, mechanical reply. How much she wanted to forget! "The Arabs have a saying: 'In the desert one forgets everything, one remembers nothing any more . . . I was in the desert once . . .'"

The man stared at her a moment, half hypnotized himself.

"What an actress!" he murmured, then half contumacious grin came back and he went on in the same cold-blooded, business tones:

"To furnish the setting, yes. I'll introduce you to the right people. I'll make you shine like a diamond. If you fall in with me you won't have a thing in the world to do but play to your heart's content."

So that was it, wasn't it? She might have known. "If you fall in with me—The same old proposal. Any girl in the world would be蠢蠢欲动 as an unsophisticated girl as Starr Ellison, whose eyes, it appeared, were world-wise, and were not. Even she could recognize that old thing for what it was. The same old thing merely dressed up in new words."

Starr had thought that there was no room in her tired heart for more

emotion. But another worm of bitterness ate in, creeping along, lingering, making itself at home.

Yet in spite of it she found herself considering the offer. This was not the same thing she had been up against at the employment agency. It was quite another matter. No lascivious old beast who wanted to employ you in the guise of secretary, who entreated you to "be nice to him." This man—he represented so much of all she had looked upon from afar. He was her own kind. He represented—gloriously!

Her hitherto well catalogued thoughts on one subject whirled in a vortex, spun to a centre. Other girls—girls did themselves for less than six months of life. Every day. They thought nothing of it. Why not she, who had so little to lose, so much to gain? This stranger, this New York Arabian Night's "Hassan" who had materialized merely at a tumultuous wish, was offering her everything she wanted so desperately—except true love, of course. And that she dared not accept from any man, even though it should be offered.

Her voice was brittle as her head tilted with the impetuosity of one of those ancient princesses she remembered.

"And the price?" "Hassan" sounded suddenly shocked. As quickly he moved a bit away from her.

"Oh, you mustn't misunderstand me." He glanced quickly at her, then away, but in one quick glance, decided not to make the bald statement he had intended. He put it in a mild way. "I—I assure you I'll not attempt to inflict myself upon you in any—er—pleasant way. It's a business proposition, merely. You will be on a salary. You see, it will work out like this: All the time you are playing, as you say you want to play, you will actually be working for me."

WILSON'S

FLY PADS

REALLY KILL

One pad kills flies all day and every day for 2 or 3 weeks. 3 pads in each packet. No spraying, no sticky mess, bad odor. Ask your Druggist, Grocery or General Store.

**10 CENTS PER PACKET
WHY PAY MORE?**

THE WILSON FLY PAD CO., HAMILTON, ONT.

by the two pierced iron lanterns that beckoned a welcome. The ivory and the plum comfort of the entrance enveloped them and the small auto-electric lights that were turned on before a door painted ivory and with a brass knob. He didn't use it; rapped with his knuckles.

A Japanese serving man opened the door and they went through a hallway, all dark woodwork and tinted walls, to a living room where a fire burned on the hearth where once had been a grate.

"This is well enough for a bachelordom," he said, with a touch of disdain. "I hope an Egyptian princess can make herself at home."

(To Be Continued)

Sure Of A Welcome

United States Has Warm Affection For King Edward

Every good American will echo heartily the words of President Roosevelt in Quebec—"We look forward to the day when, finding it possible to come again to the Dominion, he (King Edward) may also visit with his neighbors in the United States." What an uproarious greeting he would receive! The visit would make any similar event in our history seem a tame thing and would do more than a hundred polo matches, cup races and naval and economic conferences to promote a better mutual understanding. There is an abiding admiration here for English institutions and a warm affection for the King—and Americans would welcome an opportunity to display them. Inasmuch as the young King has not hesitated to depart from precedents and to make some of his own an acceptance of the President's indirect invitation would not be surprising.

It is nothing new for a President to leave his native land. President Wilson went to Europe twice. President Harding to Vancouver, and President Coolidge to Cuba. But no King of England has ever set foot in the United States—Boston, et al.

Rare Autograph Volume

Contains Letters Written By Famous Men In 15th Century

A rare volume of autographed letters written by kings, scientists, authors and statesmen of Italy, France and England, between 1500 and 1800, has been discovered in the Museum of Kiev.

The book is said to contain autographs and letters of Voltaire, Descartes, Molire, Cardinal Richelieu, Philip II, of Spain, and Beaumarchais, among others. It was published in Paris at the beginning of the Nineteenth Century.

The material for the book, of which the Kiev copy is believed to be the only one in existence, is stated to have been gathered from the archives and libraries of over sixty European countries.

While the outside temperature stood at 103 degrees, a drinking fountain in the post office at Findlay, Ohio, froze. Postmaster W. T. Autl said the mechanism had gone "hay-wire."

CHAPTER V.

Starr did not see the calculating glance Fairbourne gave her in the darkness of the taxi. If there had been any lingering doubt in his mind, this simple acquiescence to going with him wherever he led confirmed that. His conscience was clear. And why not? he argued to himself, seeing where he had at last ended up with her? She might have been a racket, but at least she was not enough at it for it not to stick too plainly, and he could mold her to his wills.

They got cut before the low doorway of an old-fashioned house, one of those obviously made into bachelor apartments of the smarter class. He led her through the doorway lighted

Wants To Write Book

Young Railway Porter Hopes To Return To West Indies

To Emerson S. Mahon, portering is but a means to an end. The colored observation-car attendant on the Canadian Pacific Railway's train that runs from Winnipeg to Edmonton, hopes, some day, to return to his native West Indies and there to write a book.

Mahon would like to tell the world of the ancient customs and practices of the West Indians, particularly of those on the Isle of Grenada, where he was born and from where he came to Canada 24 years ago. He intends, some day, to dig deep into the centuries-old lore of the people in that group of islands in the Caribbean Sea.

But before doing that the smiling porter wants to progress further in his study of the Hebrew religion. Mahon is an ordained Rabbi. He holds three degrees in the ancient Jewish faith. His ambition is to attend a Hebrew seminary in Great Britain to obtain the highest degree in his religion, that of Rav, or chief rabbi.

Mahon's home is in Winnipeg. Four nights a week he is "on the road," the other three being spent in the Manitoba capital, where he preaches his faith. He explained there are seven degrees of rabbis. He is authorized to practice three of them and must continue his seminary studies to obtain the remaining four.

The young porter explained that Hebrew is not at all an uncommon religion among negroes. The faith, he said, had its beginning in the West Indies in 1492. In that year, he related, Jews were expelled from Spain, many emigrating to the western hemisphere.

The negro slaves as a general rule conformed to the religion of their masters. His grandmother, who married an Irishman who fled to the West Indies from his native Isle, was born a year before slaves were freed. Her religion was Hebrew, as was that of her "master." That has been the religion of his family ever since.

British Empire In Ships

Artist Spends Ten Years Painting Story On Plywood

A little woman with an ideal 100 yards long and 75 feet high has arrived in London to see if she can sell it.

She is Clara Fargo Thomas, noted American artist, and the idea, which she has been ten years perfecting, is a pictorial story, painted on plywood, of the British empire in ships—starting with the Regent, built in the fifteenth century, and finishing with the Queen Mary.

"Since childhood ships have fascinated me," Mrs. Thomas declared. "I have haunted museums and searched records to get all details accurate."

Her professional career started when owing her dressmaker money, she offered to paint her furniture. By the time she had finished the dresser maker owed her money.

While in London, Mrs. Thomas is using the studio of Sir John Lavery, famous painter.

Pencils From Japan

Laid Down At Less Than Cost Of Raw Materials

Imports of pencils into Canada from Japan in May of this year were about equal to estimated domestic production for the same months, and were almost as great as total imports from Germany for the whole year 1935, says Bookseller and Stationer, Toronto. The average price of these imports was placed at approximately 24 cents per gross, compared with a valuation of 1935 importations of 58 cents per gross and 61 cents per gross in 1934. The laid-down cost declared on Japanese pencils in Canadian ports of entry is said in many instances to be actually lower than the cost of the raw materials that went into them.

Hard On Teachers

The bureau of education has ruled that school teachers in Greater Shanghai could not use rouge, lipstick, face powder or permanent waves as they were "incompatible with educational principles." Similar prohibitions previously applied to girl students.

Gold Production

Production of gold from Saskatchewan and Manitoba sources during June was recorded at 16,076 ounces while the total for the first six months of 1936 was 87,341 ounces as compared to 78,507 ounces in the same period of last year.

The people who drive the fastest usually have the least to do after they get where they're going—if they get there.

BACK-ACHE

When terrible, down-dragging back pain, painful and swollen joints, or spell after spell of dizziness and headache makes you feel like this, call for Kidney! Infamed, congested kidneys cannot properly filter your blood. Correct this condition before serious rheumatic trouble develops. Sootho and strengthen your kidneys with

GIN PILLS FOR THE KIDNEYS

A soft answer turneth away wrath, but grievous words stir up anger. Proverbs 15:1

Revere Thine Image, Lord in me, Lovely and gentle may I be; No charms but these to Thee are dear;

No anger mayest Thou ever find,

No pain in my unrefined mind,

But faith and heaven-born peace be there.

Neither say or do ought displeasing to thy neighbor; and if thou hast been wanting in charity, seek his forgiveness or speak to him with gentleness. Injuries hurt not more in the receiving than in the remembrance. A small injury shall go as it comes, a great injury may die or sup with it. Why should you vex yourself, because another has vexed you? Grief for things past that cannot be remedied, and care for things to come that cannot be prevented, may easily hurt and can never benefit you. Therefore commit yourself to God in both, and enjoy the present.

Man Without A Country

Former Russian Leader May Be Forced To Leave Norway

Indications are that Leon Trotsky, former Russian revolutionary leader, might soon be returned to his usual status of a man without a country.

The wandering, sickly Bolshevik is to be expelled from Norway, Government sources said, if charges of new international intrigues are proved against him. At the same time, Pravda, Moscow Communist organ, made clear that there would never be hope for reconciliation between Trotsky and Stalin.

Banished from his own revolutionary land and excluded from many others, Trotsky accepted refuge in Norway with the promise to refrain from propaganda or other international activity. Recently young Norwegian Nazis broke into Trotsky's home at Honfoss and found papers which they said dealt with plots in France and Spain. They handed them over to police.

Trotsky entered Norway June 18, 1935.

Britain Going Ahead

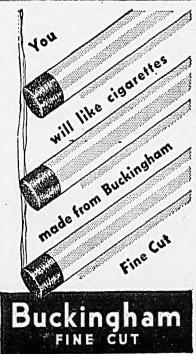

In spite of the reduction in parcel post rates, Britain's postal services had a profit of \$11,250,000 in the last year. Telephone service, operated by the British post office, had a record income. It is another sign of the way Britain is going ahead.

Greatly In Demand

Marguerite Salé, artist's model, says she is the most painted woman in the world. She estimates that in the nine years she has posed for artists, she has been painted or sketched 5,000 times.

It is questionable whether the sawfly is as much a menace to Canadian forests as the sawmill.

According to a trade journal there is a distinct boom in new cars. And usually a distinct rattle in old ones.

THE CHINOOK ADVANCE

Published by Mrs. M. C. Nicholson every Thursday afternoon from The Advance Building, Main Street, Chinook, Alberta, and entered in the post office as second class mail matter.

The subscription rates to The Advance are \$1.50 per annum in Canada and \$2.00 outside of Canada.

The transient advertising rates in The advance are—display, 40c per inch for first week and 30c for each succeeding week, providing no change is made. For heavy com position an extra charge is made for first week. Reading notices, 10c per count line. Legal advertising, 15c per count line for first week and 10c for each succeeding week. Cards of thanks, \$1.00.

Advertisements under this heading are charged at the rate of 50c for 25 words or less per week, 10c for each additional 5 words. Three weeks for the price of two.

All letters addressed to the editor for insertion in The Advance, must be signed to show bona fides of the writer. Publication in all cases is subject to the judgment of the Publisher. We do not necessarily coincide with views expressed.

HAIL WIPES OUT DUCKLAKE DIST

HUSSAR, August 23.—The district north of Hussar was devastated by the worst hail storm seen in years on Friday afternoon. A strip varying from Rockyford east along the river.

Snider Bros. lost 700 acres of wheat that was expected to bring from ten to fifteen bushels per acre; and throughout Duck Lake territory and north the fields are black again. Birds were killed by the hail stones; gophers drowned in their holes as the force of the hail kept them from getting out. The whole country is laid bare of gardens and field crops, and the trees are stripped of their leaves.

Much of the land south of this strip was completely dried out, or had been stripped of grain by the grasshoppers. This makes practically the whole community north of Hussar a non-productive area this year.

CHINOOK "YOUNGER SET" BEGIN THEIR EDUCATION

The following is a list of the children who have reached school age, and have started in the primary room of the Chinook school this week namely: Laura Ford, Marcel Butts, Marcelline Butts, Merna Bilton, Glen Bilton, Rex Purple, Lorne Cooley, Edward Boesse, Florence Monteith, Johnny Rosenau and Allan Marr.

The Ladies' Card Club

The Ladie's Card Club met Tuesday evening Sept 1st, at the home of Mrs. W. S. Lee.

The honors were shared by Mrs. P. Petersen and Mrs. L. Robinson. The club will meet next week at the home of Mrs. Milligan, with Mrs. Seeger as hostess.

Mr. N. F. Marcy and two sons left Thursday day for Brooks taking a bung h use behind the tractor, a truck and a 4 horse team and wagon.

Todd, Connor—that the Reception committee consists of the officers and directors of the Fair and that Mesdames Stewart, Shier, Wilson and Cooley be a committee to arrange for the lunch on the day of the Fair.

Allen, Connor—that Mr. Todd, Mr. Meeres and Mrs. Cooley be a committee to put on a dance after the School Fair.

Allen, Todd—that Mesdames Isbister, Todd and Suiter be a committee to arrange for cocoa to be served in the school on the day of the Fair.

Mrs. Stewart, Mrs. Shier—that the meeting adjourn.

FRELAN WILFORD WON'T DEFEND TITLE

Mr. Frelan Wilfred, Stayley farmer who won the world wheat championship at the Chicago International Show, won't enter this year. The drought ruined his crop and he has no wheat fit to show in such a competition. His crop is going 11 bushels to the acre.

It is the worst year he has ever seen in his 33 years in Alberta, Mr. Wilfred says. Herman Treille, crack Peace River farmer, won't enter at Chicago either, as he is barred from competition, having won three times.

Here and There

Barrowell, Alta., sets this year's record for the earliest official report on work on the line, preceding to a message received March 19 by the Agricultural Department of the Canadian Pacific Railway at Winnipeg. The earliest last year came from Peter, Alta., which had held the record for five years, on March 21.

Alfred S. McKay, recently elected president of the Western Alberta Farmers' Old-Timers' Association, is one of the two surviving members of the survey party which charted the route of the Canadian Pacific Railway across prairie and mountain in 1880-1885.

Interviewed at Victoria recently, W. M. Neal, vice-president of western lines, Canadian Pacific, said the railway anticipated one of the biggest travel years in recent Canadian history. There had been, he said, a substantial improvement in passenger travel business last year, which is expected to continue this year.

Changes in hotel management in western Canada are announced. Mr. H. M. Mathews, general manager, Canadian Pacific Hotel system as follows:—T. E. Chester, manager Hotel Vancouver, appointed assistant general manager of the company's hotel in western Canada, succeeded A. E. Robertson, resigned. Cola F. Pratt, manager Pullter Hotel, Calgary, becomes manager Hotel Vancouver with W. J. Mylett, succeeding Mr. Pratt as manager of the Pullter.

Vancouver Island, known as the historical cradle of the Pacific Northwest, is to be featured this summer by a combination of the Princess of Wales, the Canadian Pacific R.C. series, which will make a complete circuit of the Island, leaving Vancouver en passant July 13, for a seven day trip in the paths of the early explorers.

During the winter season just closed, there was witnessed the great step forward in travel westward over the Canadian Pacific. Over 500,000 more than a fifth greater than last year, made journeys over the week-end from Montreal and old Fort William to London, then the mountain passes to the north of British thoroughly covered by Canadian Pacific Railway. Many came from cities in the Eastern United States to enjoy the sport.

Nine weeks have been named and arranged for Vancouver's Golden Jubilee celebrations, preparing the city for the summer. The will cover the whole season and are expected to attract visitors from all over the world. One of the high lights will be the re-enactment of the arrival of the first Canadian Pacific train a century ago.

Chinook and District School Fair Held Meeting

A School Fair Meeting was held on Saturday, August 29 at 8 p.m. in the Chinook Consolidated school. The following officers and directors were present: N. F. Marcy, W. A. Todd, M. Otto, Mesdames Shier, Wilson, Stewart, Messrs Payce, Connor and Allen.

The minutes of last meeting were read and adopted.

Then followed the reading of correspondence.

Mrs. Shier, H. D. Connor—that we have the Singing, Physical training and Parade immediately following lunch.

Mrs. Stewart, W. Todd—that the Sports be started at 11 a.m. and continued until 12 and held again after the Parade.

Mesdames Shier, Wilson—that the Chinook Meat Market special be given as 1st prize for Physical Training.

Mrs. Wilson, E. B. Allen—that the prizes for Physical Training and Singing be \$1 20, 2nd 1.75 and 3rd 1.25 to be paid from the T. Eaton, Hudson Bay and Chinook Meat market specials.

Mrs. Stewart, E. B. Allen—that a special entry and special exhibit be made for the special prizes given by the Chinook Trading Co.

Mrs. Shier, Mr. Payce—that the Western Canada 4 24 lb sacks of flour be given as 1st prizes for classes 50, 55, 60 and 61.

Mrs. Shier, Mr. Allen that the Simpson Co. prize be given to the boy or girl winning the highest number of points in classes 1-126.

Allen-Todd—that we do not give prizes for classes 1-10 included in the prize list.

Mr. Allen Mrs. Wilson that the Secretary write to the people who have made inquiries, informing them that they may exhibit in any of the classes except school work, as we must adhere strictly to the rule that it be handed in by June 30th.

Payce Connor—that we eliminate all the grains except sheaf of wheat, oats and rye and corn (classes 14, 15, 16 and 21).

Mr. Allen Mrs. Stewart—that \$100 be allowed for sports and the remainder of the prizes be paid on the point system.

Allen, Payce—that we eliminate the livestock (classes 28-34).

Allen, Payce—that Messrs Meeres, Morrell, Connor and Todd be a committee with the privilege of adding to the number to arrange the hall for the Fair.

Allen, Todd—that the Hall committee be as follows:

| | |
|-------------------|----------------------|
| School work | S. Meeres |
| Vegetables | S. W. Warren |
| Manual Training | W. Falconer |
| Poultry | E. B. Allen |
| Cooking | Mrs. Stewart |
| Sewing | Mrs. Wilson |
| Physical Training | H. Connor |
| Parade | Mrs. Cooley-H. Payce |
| Music | Mrs. Shier |
| Sports | Messrs Meeres, Todd |
| Courts | Connor and Morrell. |
